

Amendments To The Claims

This Listing Of Claims will replace all prior versions, and listings, of claims in the application:

Listing Of Claims:

Claim 1 (Cancelled).

Claim 2 (Currently Amended): A child-safe ~~Child-safe~~ packing for tablets, capsules, or similar pharmaceutical products with a blister pack (52) with at least one cup (64) to hold the tablets (60) sealed by a push-through cover film (66), ~~characterised in that~~ over the blister pack (52) fitted with an outer pack (50) is arranged an intermediate part (56), the film cover (66) of the blister pack (52) faces towards the intermediate part (56), between the blister pack (52) and the intermediate part (56) is arranged a first adhesive (70), and the intermediate part (56) is partly covered by a removable separating part (57), and a cover part (58) lies on the separating part (57), where the cover film (66) of the blister pack (52) faces towards the intermediate part (56), and in that between the blister pack (52) and the intermediate part (56) is a first adhesive (70), between the intermediate part (56) and separating part (57) is arranged a second adhesive (74), and between the intermediate part (56) not covered by the separating part (57) and the separating part (57) and cover part (58) is arranged a third adhesive (78), where the third adhesive (78) has a lower adhesion force than the first adhesive (70) and the second adhesive (74) has a higher adhesion force than the first adhesive (70).

Claim 3 (Currently Amended): The packing Packing according to claim ~~1 or 2, characterized in that~~ wherein the blister pack (12, 52) in the outer pack (10, 50) is arranged between a base part (14, 54) and the intermediate part (16, 56), and ~~that~~ the first adhesive (30, 70) is arranged between the base part (14, 54) or blister pack (12, 52) and the intermediate part (16, 56).

Claims 4 to 8 (Cancelled).

Claim 9 (Currently Amended): The packing Packing according to claim 3, ~~4 or 6 to 8, characterized in that~~ wherein the cup (24, 64, 114, 152) of the blister pack (12, 52, 102, 142) protrudes outwards from the plane formed by the base part (14, 54, 104, 144).

Claim 10 (Currently Amended): The packing Packing according to claim 9, ~~characterised in that~~ wherein the cup (24, 64, 114, 152) of the blister pack (12, 52, 102, 142) penetrates an opening (28, 68, 118, 156) in the base part (14, 54, 104, 144).

Claim 11 (Currently Amended): The packing Packing according to claim 9, ~~characterised in that~~ wherein a cup is formed from the base part (14, 54, 104, 144) and the cup (24, 64, 114, 152) of the blister pack (12, 52, 102, 142) is arranged in the cup of the base part (14, 54, 104, 144).

Claim 12 (Currently Amended): The packing Packing according to ~~any of claims 1 to~~ Claim 10, characterised in that wherein the outer pack (10, 50, 100, 140) consists of a single cut-out.

Claim 13 (Currently Amended): A double ~~Double~~ pack characterised in that it consists of two mirror symmetrically arranged part packings according to ~~any of claims 1 to 11~~ Claim 10.

Claim 14 (Currently Amended): A multi-portion ~~Multi-portion~~ pack of at least two packings according to Claim 10, ~~any of claims 1 to 12, characterised in that wherein~~ the individual packings are arranged next to each other in a strip pack (40, 90) ~~and are preferably separable from the strip pack (40, 90) along a weakening line, in particular a perforation line (42, 92).~~

Claim 15 (New): The multi-portion pack according to Claim 14, wherein the individual packings are separable from the strip pack (40, 90) along a weakening line.

Claim 16 (New): The multi-portion pack according to Claim 15, wherein the weakening line is a perforation line (42, 92).

Claim 17 (New): A double pack that consists of two mirror symmetrically arranged part packings according to claim 2.

Claim 18 (New): A multi-portion pack of at least two packings according to claim 2, wherein the individual packings are arranged next to each other in a strip pack (40, 90).

Claim 19 (New): The multi-portion pack according to claim 18, wherein the individual packings form the strip pack (40, 90) along a weakening line.

Claim 20 (New): The multi-portion pack according to claim 19, wherein the weakening line is a perforation line (42, 92).
